AURA
w/ Zen Core

CASCADELUXURYVINYL.COM

What Makes Aura w/ Zen Core Unique?

Zen Core is a specialized material that is 30% less dense than traditional stone core products. This makes Aura w/ Zen Core significantly more pleasant to live on because it is softer, warmer, and quieter than traditional rigid flooring products.

We also integrated a 22mil commercial grade wear layer and perfectly balanced construction, so you can worry less about the performance and longevity of your floor.
